Matt's moment of Fame!

Matt Abbott, Year 8 student, met Prince Charles, President Obama and Prime Minister Gordon Brown at the service to remember the Normandy landings recently. His photograph appeared in the Herald on Wednesday. Matt went to Normandy as he is a sea cadet and they formed part of the ceremony.

Uniform for September 2009

All parents of students in Year 7 and Year 8 should have received letters last week giving more details of the new uniform for September for all students in Key Stage 3 (Years 7, 8 and 9).

Some parents have asked whether they will still be able to buy the blazers from supermarkets instead of through the school supplier. This is possible, although the supermarket blazers will not have the special internal pocket that will be used to add the new badge in September 2010. If you buy a supermarket blazer, you will need to be ready to add the badge to it after the first year. The blazers will be plain black for the school year 2009-2010 and the ETC logo will be on the tie.

We have to delay changing the school badge until the following year because the Local Authority (East Sussex County Council) is currently discussing plans for development of the College which may affect the name in 2010.

Thank you,

Keith Pailthorpe

SCIENCE, TECHNOLOGY AND MATHS TASTER SENSATION, SUSSEX UNIVERSITY

On Wednesday 17th June, a group of 14 students from Years 9 and 10 went to Sussex University to experience a different side to Science, Technology and Maths.

It wasn't just our school that took part, there were at least 20 schools that were visiting at the same time we were.

There were some really interesting activities that we took part in. One was a DNA test; we had to find the DNA of some apple and some onion. Another test we did was to identify who had stolen a car from the fibres that had been left in there.

Overall the whole day was really enjoyable and extremely interesting. It helped me realise just how clever technology is.
